

AI-POWERED CONSTRUCTION WORKFORCE & SHIFT MANAGEMENT

Crew every site. Check every ticket. Keep projects on track.

The right carpenters, electricians, labourers and plant operators on the right site at the right time, planned around your project programme.

Builders

Civil contractors

Trade contractors

Fit-out & refurbishment

Labour hire

Multi-site projects

THE PROBLEM

Many sites, changing programmes, a crew that moves every week.

Construction runs on the programme: early starts, concrete pours, weather delays and handovers. Crews mix direct employees, trades and subcontracted workers who move between sites. Spreadsheets and phone calls can't keep the right, licensed people on site when the work is ready.

Whiteboard rosters

Out of date the moment a pour or delivery moves.

Early-morning call-outs

Foremen ringing around at 5 AM to fill a crew.

Group chats

Site moves agreed by text that never reach the office.

Expired tickets

Safety cards and plant licences checked too late.

Paper sign-in

No reliable record of who was on which site, and when.

Manual timesheets

Overtime and site allowances worked out by hand.

Shifline brings crew scheduling, availability, site check-in, licences, incident reporting and payroll into one connected platform, for every project site.

BUILT FOR

Residential builders

Civil & infrastructure contractors

Fit-out & refurbishment firms

Commercial builders

Electrical, plumbing & trade contractors

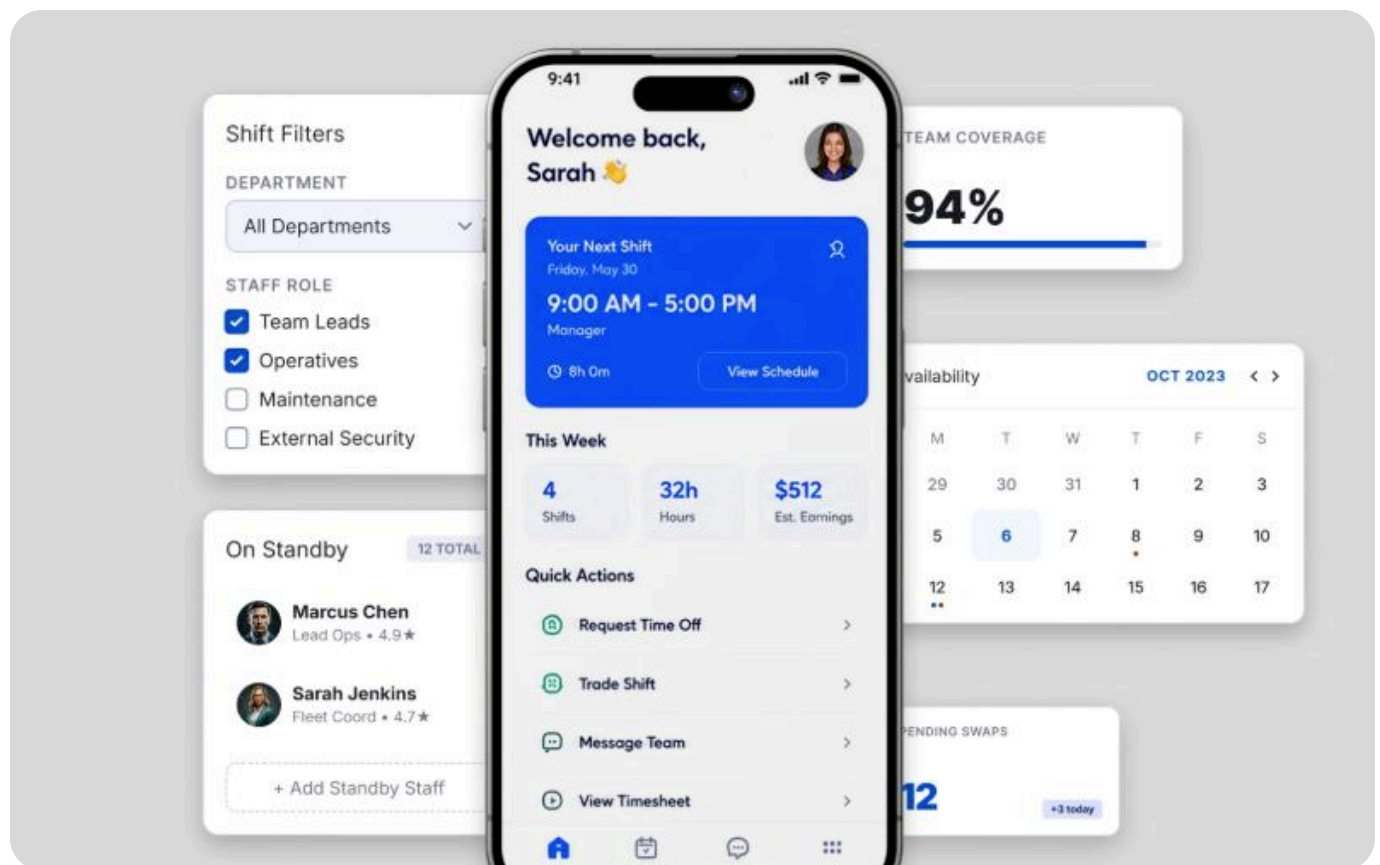

Labour hire & subcontract crews

...and the project managers, site supervisors, foremen, HR and payroll teams who run them.

THE BIG DIFFERENCE

Your crew tells you when they're available. Shifline schedules around it.

Availability comes from your workers, not from foremen chasing them. Trades, labourers and subcontracted workers update it in the app whenever their week changes; supervisors see it every time they plan a crew.

JM

Josh's week, as the site supervisor sees it

Safety card valid

Monday
6 AM-2:30 PM

Tuesday
6 AM-2:30 PM

Wednesday
Not available

Thursday
6 AM-4 PM

Saturday
All day

No phone tree needed. The supervisor assigns shifts using availability, trade, skills, licences, project site, previous assignments and existing schedules.

Site needs flow down. Crew availability flows up. AI connects them.

01

Sites set crew needs

By trade and shift, including pours, deliveries and inspections.

02

Workers share availability

Available and unavailable times submitted from the app.

03

Shifline AI builds the schedule

Fewer clashes, the right licences on every shift.

04

Supervisors review and publish

Adjust and approve. Final control stays with them.

05

Workers accept and confirm

Notifications reach each phone; responses update the schedule.

STOP RINGING AROUND. START SCHEDULING.

WITHOUT SHIFLINE

- 1 The foreman calls 25 workers: "Who can do Saturday's pour?"
- 2 Answers come back by text and get copied to a whiteboard.
- 3 Two labourers swap sites without telling the office.
- 4 The schedule is wrong again by Friday.

WITH SHIFLINE

- 1 Workers keep availability current in the app.
- 2 The supervisor sees it while building the schedule.
- 3 Swaps are requested and approved in the app.
- 4 Everyone sees the same, correct schedule.

Less ringing around. Every site fully crewed.

Let AI do the heavy lifting.

Structure, services, finishing trades and plant, across every project site, six or seven days a week. Shifline's AI builds schedules around site requirements, licences and your crew's availability, with fewer clashes and less manual juggling.

~~"Who's free on Saturday?"~~

"Who is the best available, licensed excavator operator for Saturday's early start?"

WHAT THE AI WEIGHS

Worker availability

Trade & role

Skills

Project site

Location

Site inductions

Safety cards

High-risk work licences

Previous assignments

Leave & unavailability

Working-hour rules

Existing schedules

Schedules in minutes

Weekly crew schedules proposed automatically, with clashes and double bookings flagged.

Built around your programme

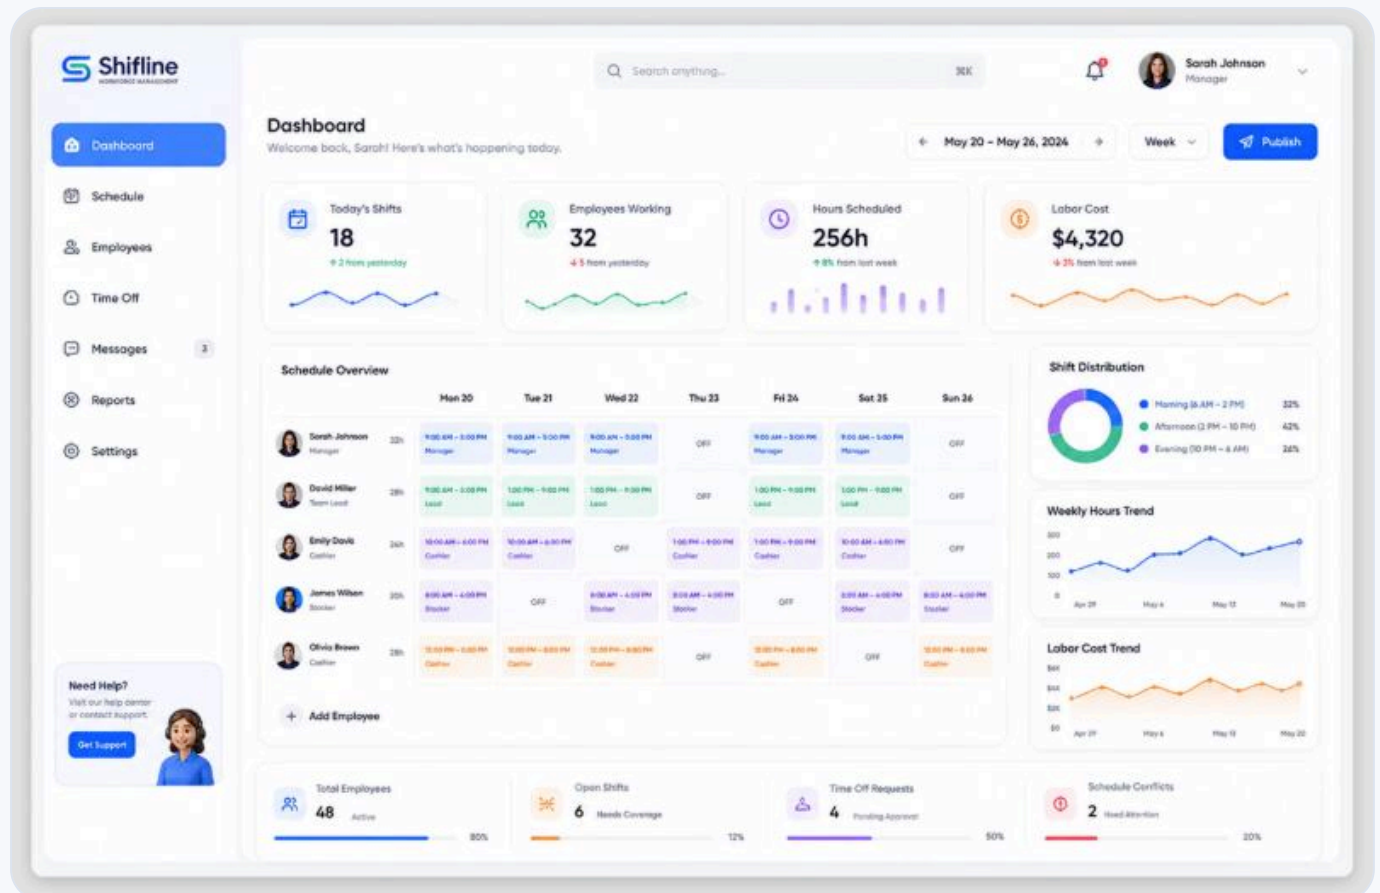

You set crew needs per site and shift; Shifline staffs to them.

Supervisors decide

AI assists your supervisors. Every schedule is reviewed and approved before it goes out.

Every crew, every site, one live view.

Project managers see today's shifts, who's on site, hours scheduled, labour cost, open shifts and conflicts in one dashboard, with the full weekly schedule beneath.

Live schedule

Week view by worker, trade and site, published in one click.

Open shifts & clashes

Gaps and double bookings flagged before the first start.

Labour cost

Scheduled hours and labour cost by project and trade.

Site communication

Updates and site instructions pushed to the crew instantly.

Leave management

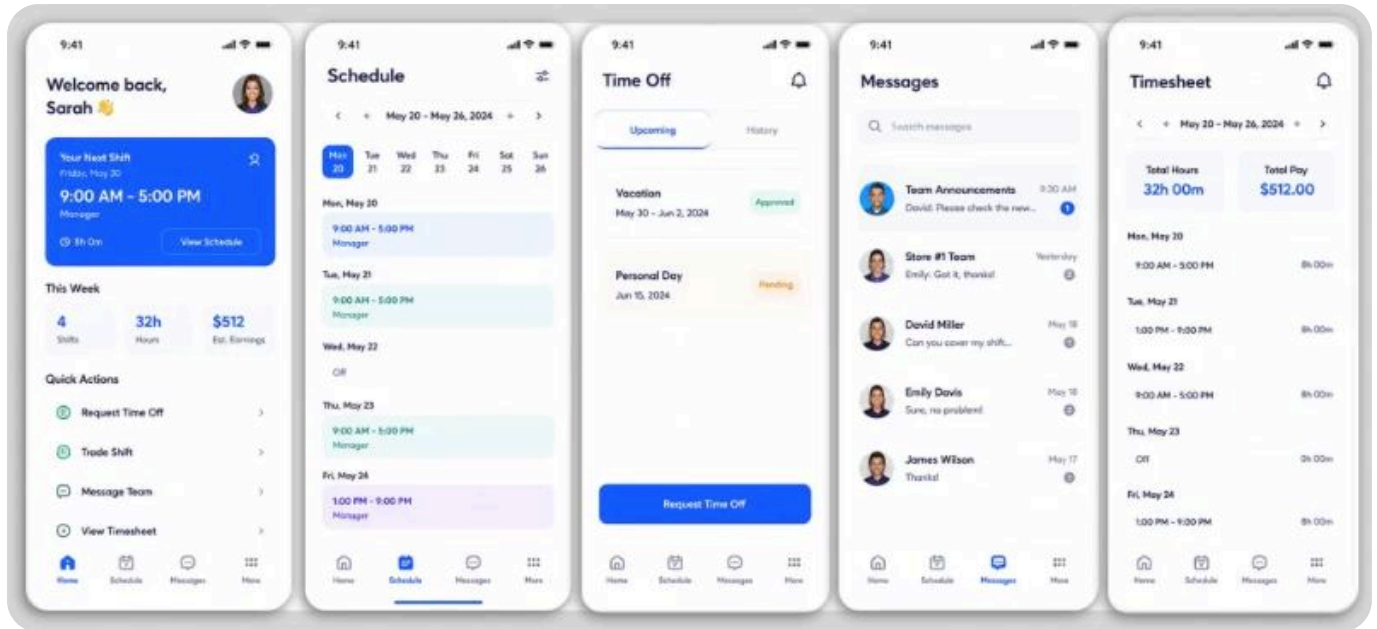

Time-off requests and approvals feed straight into availability.

Workforce reports

Attendance, overtime and hours across every site.

Your crew doesn't chase the foreman for the schedule. The schedule comes to them.

Carpenters, electricians, plumbers, labourers and plant operators see their shifts, swap shifts, check in on site, report incidents and view pay slips from their phones.

Schedule & shifts

Upcoming shifts, site and role; changes as they happen.

Swaps & open shifts

Request swaps, accept shifts and pick up open shifts.

Site check-in & breaks

Check in by QR code or within the site geofence, with breaks.

Leave, messages & pay

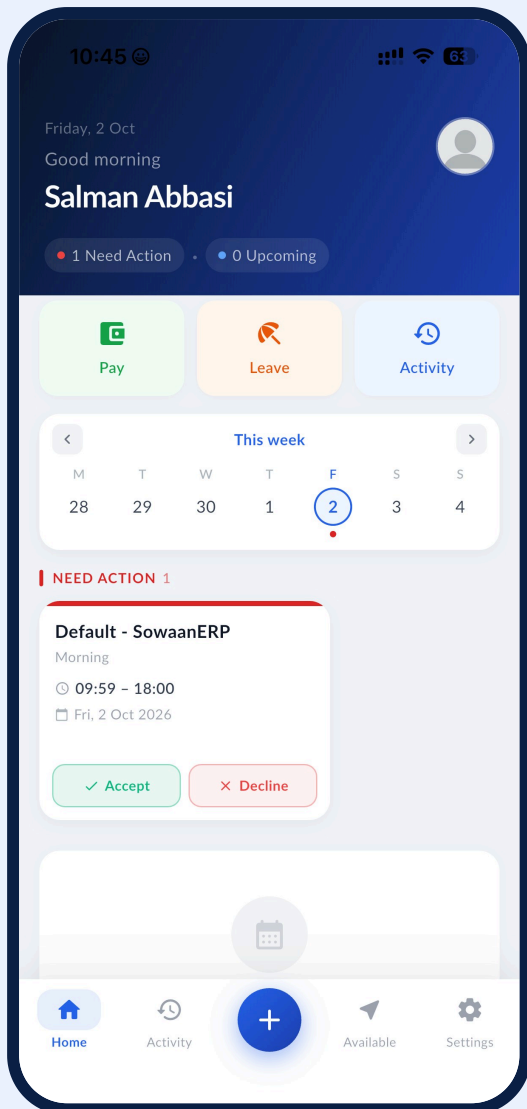

Request time off, message the crew, view pay slips.

Get the Shifline app

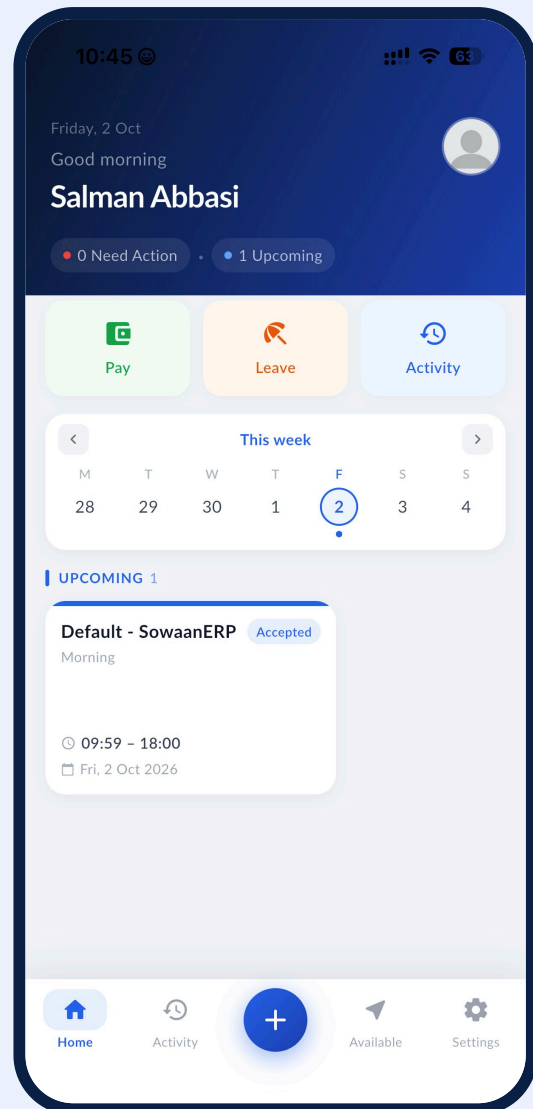

From shift request to confirmed, in one tap.

When a supervisor assigns or broadcasts a shift, it lands on the worker's home screen under Need Action. One tap on Accept moves it to Upcoming, and the supervisor sees the confirmation straight away.

1 · Shift request

Shift request arrives with time, date and Accept or Decline buttons.

2 · Accepted

Worker accepts. The shift moves to Upcoming, marked Accepted, and the roster updates.

Fill the crew before the concrete truck arrives.

OPEN SHIFT

Riverside site · Level 4 pour

Saturday

6 AM – 2 PM

4 labourers · 1 concreter

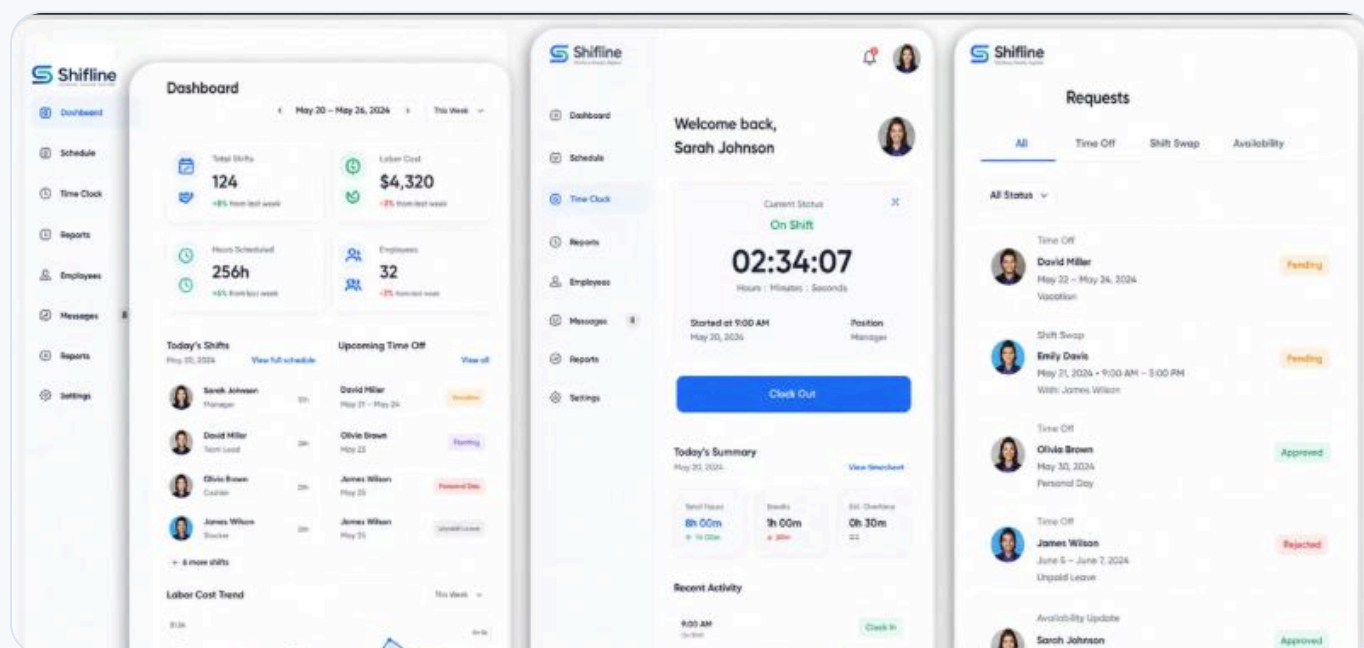

Accept shift

Decline

- 1 The supervisor creates the open shift: site, trade, time, headcount.
- 2 Suitable, available, licensed workers get a push notification.
- 3 They respond from their phones; the supervisor confirms.
- 4 The schedule updates. Management stays in control.

SITE CHECK-IN & REQUESTS

Hours on site, breaks taken, swaps approved.

QR & GPS check-in

At the site gate or within the project geofence.

Breaks & overtime

Recorded against every shift, scheduled vs. actual.

Incident reporting

Photos, notes, GPS, time and witness details.

Time off & swaps

Every request in one queue, approved by the supervisor.

The right ticket on every shift.

Shifline tracks inductions, safety cards and licences, alerts you before they expire, and makes sure only qualified workers are scheduled for high-risk tasks.

ROLE	CERTIFICATION / DOCUMENT	IN SHIFLINE
All site workers	Safety card · Site induction	Tracked · alerts
Plant & crane operators	High-risk work / plant licence	Tracked · alerts
Electricians & plumbers	Trade licence	Tracked · alerts
Subcontracted workers	Insurance · Custom documents	Tracked · alerts

Expiry alerts

Warnings before a ticket runs out, so nobody is scheduled without one.

Licence-aware scheduling

High-risk work goes only to workers holding the right licence.

COMPLIANCE INTEGRATION

Automatic confirmation from the departments that issue it.

Where workers need confirmation from a government body or licensing department, Shifline can integrate directly with that department's systems and confirm compliance automatically, based on the factors the authority checks.

Direct integration

System-to-system with the relevant department.

Multi-factor checks

Status, qualifications and validity dates.

Visible when rostering

Managers see who is cleared before assigning.

Integrations are set up for each organization and authority.

Set the rates once. Shifline calculates payroll for you.

Set hourly rates by role and shift type, including early-start, weekend, public holiday, overtime and site allowance rates. Shifline takes the hours checked in on site, applies the right rate and creates payroll automatically, with labour cost visible by project.

1

Set up pay rules

Rates per trade, shift type, award, overtime and public holiday.

2

Attendance captures real hours

Site check-ins capture real hours, including breaks.

3

Shifline calculates automatically

Hours x the right rate for every shift, including penalties and overtime.

4

Payroll is created

Approved by the office; pay slips go to each employee's app.

ROLE	SHIFT / RATE TYPE	HOURLY RATE
Labourer	Day · Weekend · Overtime	Set by you
Carpenter / trade	Day · Site allowance · Overtime	Set by you
Plant operator	Early start · Weekend	Set by you
Foreman / supervisor	Public holiday · Overtime	Set by you

Timesheets

Award rates

Site allowances

Labour cost by project

Pay slips in the app

Payroll & HR integration

One platform for every crew on every site.

Structure & concrete

Formworkers, concreters and labourers crewed around pours and inspections.

Services trades

Electricians and plumbers scheduled by licence, site and stage of work.

Plant & equipment

Only licensed operators assigned to excavators, cranes and other plant.

Finishing & fit-out

Carpenters, painters and finishing trades sequenced across floors and sites.

Subcontracted crews

Subcontracted workers onboarded, checked and scheduled with broadcast shifts.

Multi-site builders

Many projects, one central view, consistent schedules and labour cost.

FOR THE PEOPLE WHO RUN THE ROSTER

Project managers

Site supervisors

Foremen

Scheduling teams

HR & payroll

Safety managers

Directors & owners

Every project, every site, one system.

Head office sees schedules, open shifts, attendance, overtime and labour cost across every project. Supervisors run their own sites, and workers who move between sites see every shift in one app.

WHO BENEFITS

Shifline works for supervisors, owners and your crew.

For site supervisors

- Schedules in minutes, not hours
- Availability collected, not chased
- Swaps approved in the app
- Gaps filled with broadcasts
- Licence expiry alerts
- Every trade on one schedule

For owners & finance

- Labour cost by project
- Overtime visibility
- Automatic payroll
- Fewer double bookings
- One view of every site
- Verified site attendance

For your crew

- The schedule on their phone
- Shifts known in advance
- Availability updated anytime
- Easy shift swaps
- Pick up extra shifts
- Pay slips & leave in the app

BEFORE VS AFTER

From seven scattered tools to one connected workflow.

TRADITIONAL ROSTERING

- Whiteboard schedules
- Group chats
- Early-morning phone calls
- Site moves off the record
- Paper sign-in sheets
- Tickets in a folder
- Manual timesheets

SHIFLINE

- AI crew planning
- Availability in the app
- Shift swaps & broadcasting
- QR & GPS site check-in
- Licence tracking
- Incident reporting
- Automated payroll

220 workers, 8 sites, one connected workflow.

220

Workers

8

Project sites

9

Trades & crews

6

Working days

Without Shifline, supervisors rebuild crew schedules on whiteboards every week, chase availability by phone and check tickets by hand. Payroll means adding up paper timesheets. **With Shifline:**

1

Supervisors set crew needs per site

6

Swaps requested and approved

2

Workers keep availability current

7

Pours filled with broadcasts

3

Shifline proposes the schedule

8

Workers check in by QR or GPS

4

Supervisors review and publish

9

Hours flow into payroll

5

Workers accept on their phones

10

Owners see labour cost by project

■ Supervisors / head office ■ Workers (mobile app) ■ Shifline platform

QUESTIONS BUILDERS AND CONTRACTORS ASK

Does the AI decide who works?

No. It proposes; supervisors approve every schedule.

Can it check licences before scheduling?

Yes. Expired or missing tickets are flagged.

How does site check-in work?

By QR code at the gate or GPS geofence.

Does payroll handle site allowances?

Yes. Allowance, overtime and holiday rates.

THANK YOU

Thank you for reading.

We hope this gave you a clear picture of how Shifline helps builders and contractors crew every site, check every ticket and keep projects on track. The best way to see it is on your own sites.

60-DAY FREE TRIAL

Try Shifline free for 60 days.

Set up your projects and trades, invite your crew to the app and run real schedules for two full months. No credit card required.
