

AI-POWERED MANUFACTURING WORKFORCE & SHIFT MANAGEMENT

Plan every shift. Staff every line. Keep production running.

The right line workers, machine operators, maintenance and warehouse staff on the right line at the right time, planned around your production needs.

Food & beverage

Automotive & parts

Packaging

Metal & plastics

Pharma & chemicals

Multi-plant operations

THE PROBLEM

Rotating shifts, round-the-clock lines, skills that change every week.

Manufacturing runs on output: rotating day, afternoon and night shifts, changeovers, maintenance windows and demand spikes. Teams mix permanent staff, casuals and agency workers with different machine skills. Spreadsheets and phone calls can't keep qualified people on every line when production needs them.

Spreadsheet rosters

Out of date the moment a rotation changes.

Night-shift call-outs

Supervisors phoning around to cover a line at 10 PM.

Skills in heads

Who can run which machine lives in a supervisor's memory.

Expired licences

Forklift and equipment tickets checked too late.

Overtime creep

Extra hours added line by line without a full view.

Manual timesheets

Shift penalties, overtime and public holidays added by hand.

Shifline brings shift planning, availability, skills, check-in, certifications and payroll into one connected platform, for every plant, line and department.

BUILT FOR

Food & beverage manufacturers

Packaging & printing

Pharmaceutical & chemical plants

Automotive & component plants

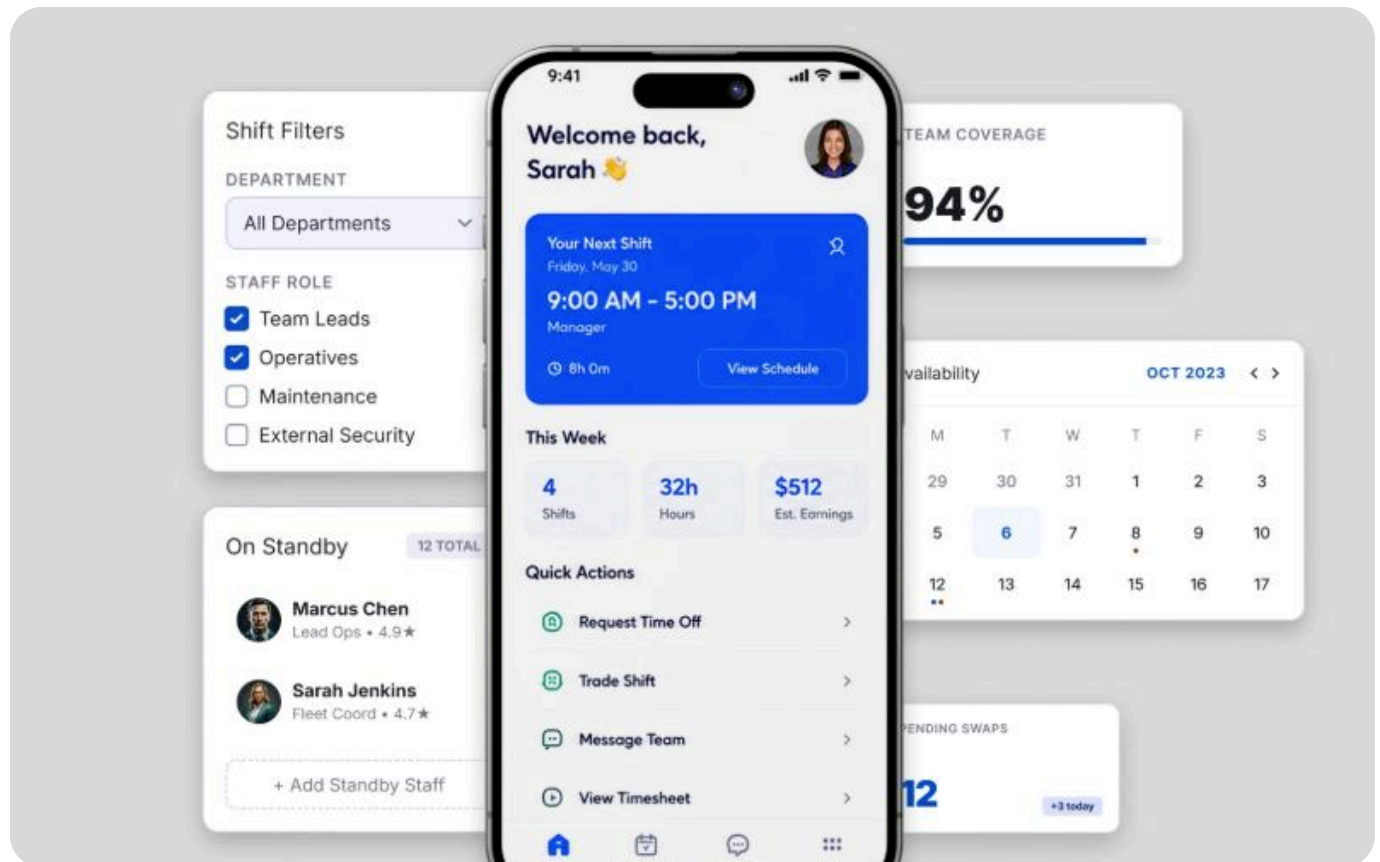

Metal, plastics & fabrication

Multi-site manufacturing groups

...and the plant managers, production supervisors, planners, HR and payroll teams who run them.

Your team tells you when they're available. Shifline plans around it.

Availability comes from your workers, not from supervisors chasing them. Line workers, operators and casuals update it in the app whenever their week changes; supervisors see it every time they plan a rotation.

DR Daniel's week, as the shift supervisor sees it

Forklift licence valid

Monday
6 AM-2 PM

Tuesday
6 AM-2 PM

Wednesday
Not available

Friday
2-10 PM

Saturday
Any shift

No phone tree needed. The supervisor assigns shifts using availability, role, machine skills, certifications, line, department and existing rotations.

Production needs flow down. Worker availability flows up. AI connects them.

01

Plants set staffing needs

By line, department and shift, including changeovers.

02

Workers share availability

Available and unavailable times submitted from the app.

03

Shifline AI builds the roster

Fewer clashes, the right skills on every line.

04

Supervisors review and publish

Adjust and approve. Final control stays with them.

05

Workers accept and confirm

Notifications reach each phone; responses update the roster.

STOP CHASING COVER. START PLANNING.

WITHOUT SHIFLINE

- 1 The supervisor calls 20 operators: "Who can do Sunday night?"
- 2 Replies trickle in and get copied into the roster.
- 3 Two workers swap rotations on a paper note.
- 4 The roster is wrong again by Friday.

WITH SHIFLINE

- 1 Workers keep availability current in the app.
- 2 The supervisor sees it while building the roster.
- 3 Swaps are requested and approved in the app.
- 4 Everyone sees the same, correct roster.

Less chasing. Every line fully staffed.

Let AI do the heavy lifting.

Production lines, cells, maintenance and the warehouse, across every plant, around the clock. Shifline's AI builds rosters around production needs, machine skills and your team's availability, with fewer clashes and less manual juggling.

~~"Who's free on Sunday night?"~~

"Who is the best available, trained machine operator for Line 3's night shift?"

WHAT THE AI WEIGHS

Worker availability

Role

Machine skills

Line & cell

Department

Plant

Production needs

Certifications & licences

Previous assignments

Leave & unavailability

Working-hour rules

Existing rotations

Rosters in minutes

Rotating rosters proposed automatically, with clashes and double bookings flagged.

Built around production

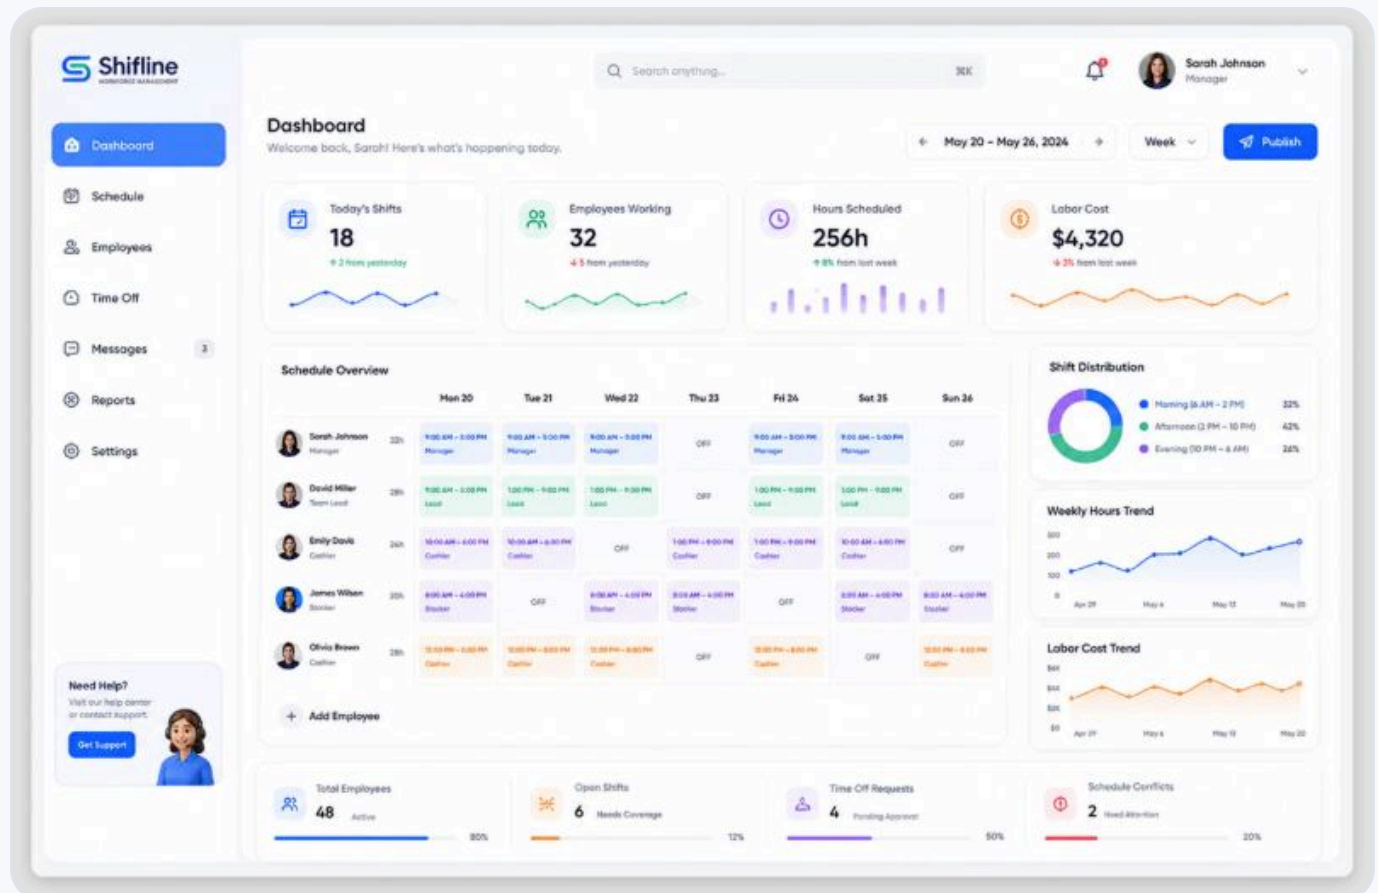

You set staffing per line and shift; Shifline staffs to it.

Supervisors decide

AI assists your supervisors. Every roster is reviewed and approved before it goes out.

Every shift, every line, one live view.

Plant managers see today's shifts, who's working, hours scheduled, labour cost, open shifts and conflicts in one dashboard, with the full weekly roster beneath.

Live roster

Week view by person, line and department, published in one click.

Open shifts & clashes

Gaps and double bookings flagged before the shift starts.

Labour cost

Scheduled hours and labour cost by plant and department.

Plant communication

Updates and instructions pushed to the team instantly.

Leave management

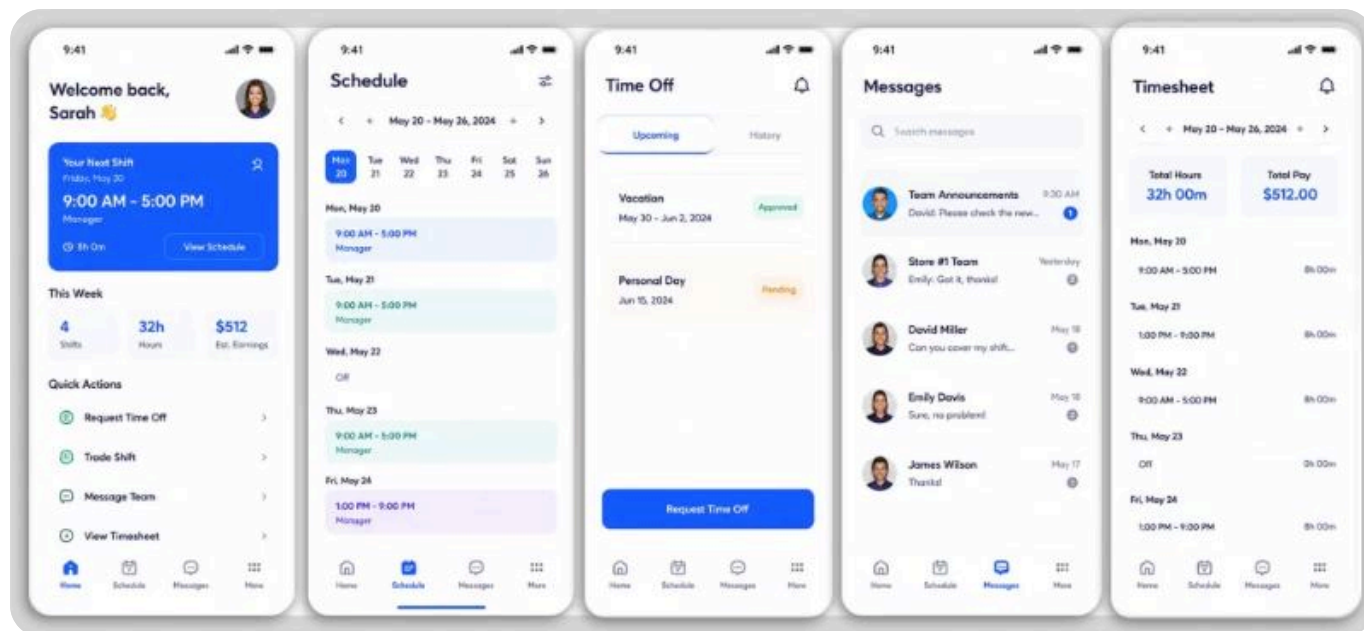

Time-off requests and approvals feed straight into availability.

Workforce reports

Attendance, overtime and hours across plants.

Your team doesn't chase the supervisor for the roster. The roster comes to them.

Line workers, machine operators, maintenance and warehouse staff see their shifts, swap shifts, clock in, request time off and view pay slips from their phones.

Roster & shifts

Upcoming shifts, line and role; changes as they happen.

Swaps & open shifts

Request swaps, accept shifts and pick up open shifts.

Clock in & breaks

Clock in and out by QR code or GPS, with breaks recorded.

Leave, messages & pay

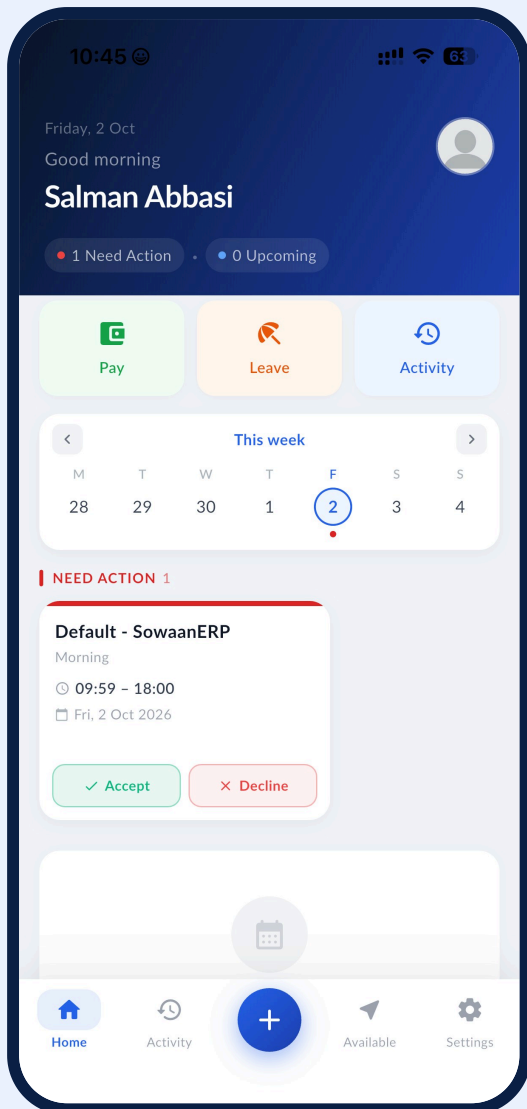

Request time off, message the team, view pay slips.

Get the Shifline app

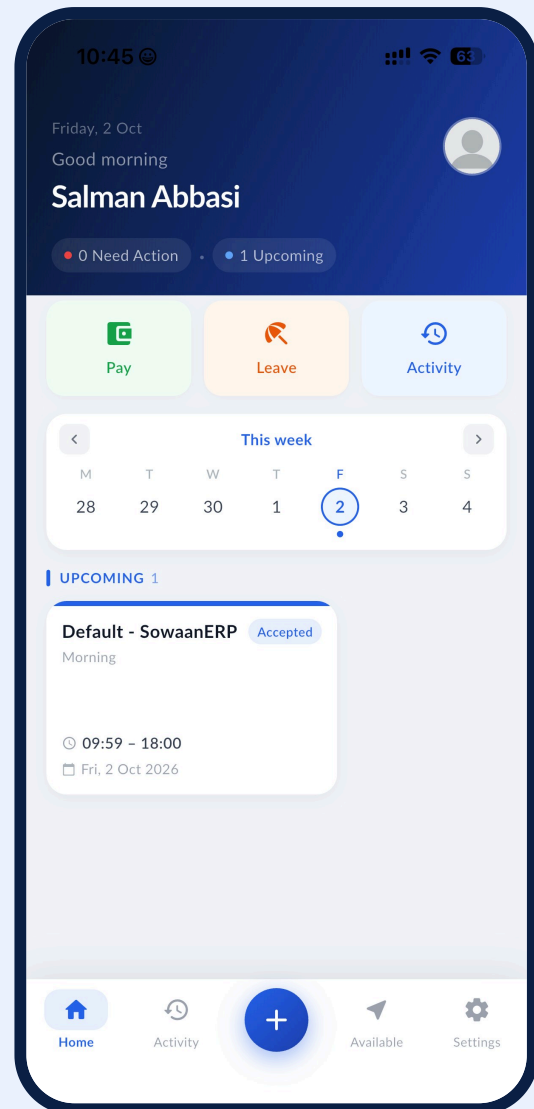

From shift request to confirmed, in one tap.

When a supervisor assigns or broadcasts a shift, it lands on the worker's home screen under Need Action. One tap on Accept moves it to Upcoming, and the supervisor sees the confirmation straight away.

1 · Shift request

2 · Accepted

Shift request arrives with time, date and Accept or Decline buttons.

Worker accepts. The shift moves to Upcoming, marked Accepted, and the roster updates.

Cover the line before the shift change.

OPEN SHIFT

Plant 2 · Packing line night

Sunday

10 PM – 6 AM

3 line workers · 1 operator

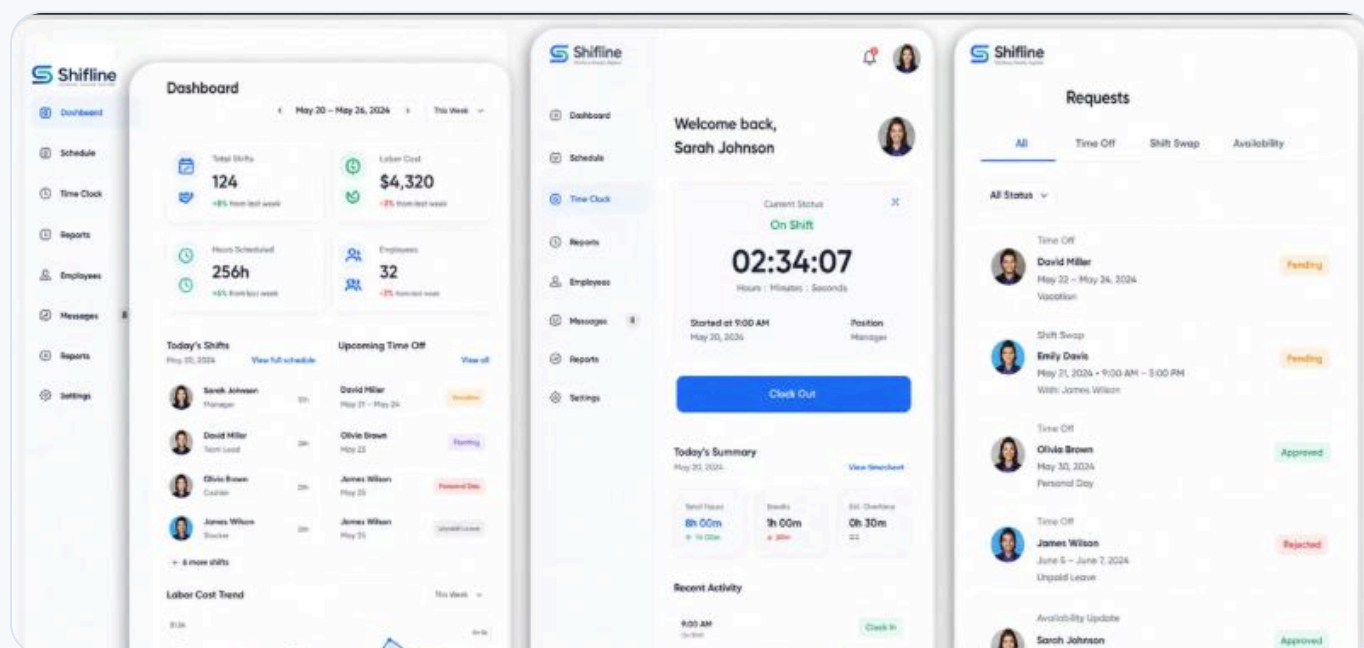

Accept shift

Decline

- 1 The supervisor creates the open shift: plant, line, role, time, headcount.
- 2 Suitable, available, trained workers get a push notification.
- 3 They respond from their phones; the supervisor confirms.
- 4 The roster updates. Management stays in control.

TIME CLOCK & REQUESTS

Hours worked, breaks taken, swaps approved.

QR & GPS clock-in

At the plant entrance or within the site geofence.

Breaks & overtime

Recorded against every shift, scheduled vs. actual.

Incident reporting

Photos, notes, GPS, time and witness details.

Time off & swaps

Every request in one queue, approved by the supervisor.

The right qualification on every line.

Shifline tracks machine qualifications, licences and safety training, alerts you before they expire, and makes sure only qualified workers are rostered where it matters.

ROLE	CERTIFICATION / DOCUMENT	IN SHIFLINE
Forklift & equipment operators	Forklift / equipment licence	Tracked · alerts
Machine operators	Machine qualification · Safety training	Tracked · alerts
Maintenance technicians	Trade licence · Permit training	Tracked · alerts
All staff	Custom documents you define	Tracked · alerts

Expiry alerts

Warnings before a licence runs out, so nobody is rostered without one.

Skills-aware rostering

Each machine and line goes only to workers with the right qualification.

COMPLIANCE INTEGRATION

Automatic confirmation from the departments that issue it.

Where workers need confirmation from a government body or related department, Shifline can integrate directly with that department's systems and confirm compliance automatically, based on the factors the authority checks.

Direct integration

System-to-system with the relevant department.

Multi-factor checks

Status, qualifications and validity dates.

Visible when rostering

Managers see who is cleared before assigning.

Integrations are set up for each organization and authority.

Set the rates once. Shifline calculates payroll for you.

Set hourly rates by role and shift type, including afternoon, night, weekend, public holiday and overtime rates. Shifline takes the clocked hours, applies the right rate and creates the payroll automatically, with labour cost visible by plant and department.

1

Set up pay rules

Rates per role, shift type, award, overtime and public holiday.

2

Attendance captures real hours

Clock-ins capture real hours, including breaks.

3

Shifline calculates automatically

Hours x the right rate for every shift, including penalties and overtime.

4

Payroll is created

Approved by the office; pay slips go to each employee's app.

ROLE	SHIFT / RATE TYPE	HOURLY RATE
Line worker	Day · Afternoon · Night	Set by you
Machine operator	Rotating · Weekend · Overtime	Set by you
Maintenance technician	Night · Call-in · Overtime	Set by you
Shift supervisor	Public holiday · Overtime	Set by you

Timesheets

Shift penalties

Overtime

Public holiday rates

Labour cost by plant

Pay slips in the app

Payroll & HR integration

One platform for every part of the plant.

Production lines

Line workers rostered by line, cell and shift, around the clock.

Machine operations

Operators matched to the machines they are trained and qualified to run.

Maintenance

Technicians covering shutdowns, breakdowns and planned maintenance windows.

Warehouse & dispatch

Forklift drivers and warehouse staff planned around inbound and outbound loads.

Demand peaks

Casual and agency workers rostered fast with broadcast shifts.

Multi-plant groups

Many factories, one central view, consistent rosters and labour cost.

FOR THE PEOPLE WHO RUN THE ROSTER

Plant managers

Production supervisors

Shift leads

Production planners

HR & payroll

Health & safety leads

Owners & operators

Every factory, every plant, one system.

Head office sees rosters, open shifts, attendance, overtime and labour cost across every plant. Supervisors run their own lines, and workers who move between sites see every shift in one app.

Management

Shifline works for supervisors, owners and your team.

For supervisors

- Rosters in minutes, not hours
- Availability collected, not chased
- Swaps approved in the app
- Gaps filled with broadcasts
- Licence expiry alerts
- Every line on one roster

For owners & finance

- Labour cost by plant
- Overtime visibility
- Automatic payroll
- Fewer double bookings
- One view of every plant
- Skills matched to lines

For your team

- The roster on their phone
- Shifts known in advance
- Availability updated anytime
- Easy shift swaps
- Pick up extra shifts
- Pay slips & leave in the app

BEFORE VS AFTER

From seven scattered tools to one connected workflow.

TRADITIONAL ROSTERING

- Spreadsheet rosters
- Phone calls & texts
- Skills in people's heads
- Swaps on paper notes
- Paper sign-in sheets
- Licences in a folder
- Manual timesheets

SHIFLINE

- AI roster planning
- Availability in the app
- Shift swaps & broadcasting
- QR & GPS clock-in
- Skills & licence tracking
- Labour cost visibility
- Automated payroll

480 workers, 3 plants, one connected workflow.

480

Workers

24/7

Operations

Without Shifline, supervisors rebuild rotating rosters in spreadsheets every week, chase night-shift cover by phone and check licences by hand. Payroll means adding up paper timesheets. **With Shifline**:

1

Supervisors set needs per line and shift

6

Swaps requested and approved

2

Workers keep availability current

7

Gaps filled with broadcasts

3

Shifline proposes the roster

8

Workers clock in by QR or GPS

4

Supervisors review and publish

9

Hours flow into payroll

5

Workers accept on their phones

10

Owners see labour cost by plant

■ Supervisors / head office ■ Workers (mobile app) ■ Shifline platform

QUESTIONS MANUFACTURERS ASK

Does the AI decide who works?

No. It proposes; supervisors approve every roster.

Does it handle rotating 24/7 shifts?

Yes. Day, afternoon and night shifts on one roster.

Can it match skills to machines?

Yes. Skills and certifications guide assignments.

Does payroll handle shift penalties?

Yes. Night, weekend, holiday and overtime rates.

THANK YOU

Thank you for reading.

We hope this gave you a clear picture of how Shifline helps manufacturers plan every shift, staff every line and keep production running. The best way to see it is in your own plants.

60-DAY FREE TRIAL

Try Shifline free for 60 days.

Set up your plants, lines and departments, invite your team to the app and run real rosters for two full months. No credit card required.
